

Tuesday's Home Learning suggestions

9.00am Register

Good morning! Please **reply** to the text register to update the teams on your learning status for the day. Please leave a **comment** on the text register if you would like any support and for a member of staff to give you a phone call. We are here to help you. We hope you have a great day. Here are today's activities. Feel free to organise the activities however works for you. Have fun!

Don't forget to register if you want to do google meet with your child tomorrow (it's part of today's register). Please choose to attend on Wednesday at 11am or 2pm, please sign up, it would be lovely to see all your beautiful faces.

PHYSICAL ACTIVITY

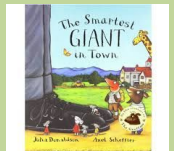

Andy's wild workout : the undergrowth [CBeebies](#) | [Andy's Wild Workouts](#) | [Undergrowth](#)

STORY: "The smartest giant in town"

<https://www.youtube.com/watch?v=cfiPrA8E3qE>

- Listen carefully to the story and afterwards see if you can remember all the animals the giant helped .
- Who could you help today by being kind?

MATHS/ Creative

Today we are going to create blossom finger painting.

On your daily walk please collect some twigs to join in today's art activity.

Click on this link to inspire you: [finger painting link](#)

Can you put some fruit on your tree? Use your finger to count them. How many are there?

LUNCH – Let your child set the table, pour the water, or cook the food with you. They can count out or measure portions, learn new vocabulary, and expand their food tastes!

SINGING: "The Penguin song"

[Penguin Dance](#) | [Brain Breaks](#) | [Jack Hartmann](#)

Weekly Science Activity
(this stays the same for the rest of the week)

Bubble snake

Instructions:

1. Cut away the bottom of a bottle
2. Put a sock over the opening you have made
3. Secure with an elastic band
4. Dip the sock into bubble mixture or soapy water
5. Blow

Observe what happens.

What size are the bubbles? Big, medium size, small, tiny...

Fact! Bubbles form because of the **surface tension** of water. Where the air and the water mix together when you blow **oxygen** through the sock it creates **hydrogen bonds** that make the bubbles!

Who made the **longest** bubble snake? Who made the **shortest** bubble snake?

Experiment with **how much water** and or **washing up liquid** you need to make the best bubbles. What happens if you add **too much** or **too little**? What happens if you **change the size of the bottle**? What happens if you **blow slowly / fast**? Does it change the bubbles?

Add **food colouring** to make rainbow bubbles

End of the Day Please **upload pictures and examples of your home learning directly onto the Evidence Me app or web suite** for the teachers to review and celebrate. If you have any technical difficulties or need help installing and using the app, please comment on the morning register and we will get back to you with support.
