Friday 12th June  
 Issue No. 32  
 Remote 9  
 (2019-2020)

 **@PrimroseHillRW**

After a busy few weeks, this week has been very calm and gentle. We have enjoyed seeing some more children returning to school. This has all been very smooth as the adults and children adjust to a new routine and regime. How quickly we get used to things. It has been lovely to see parents and children again and hope more Reception, Y1 and Y6 children can join us. Remember, we need a week's notice before re-admitting your children. **Robin**

## Years 2 - 5

On 8th June, the Government said they had scrapped plans for remaining year groups to return to school before the end of the academic year and it was then down to individual schools to decide whether they have capacity for the children to do so. Whilst this gives us a few more headachy things to think about, I believe that we should, if possible, facilitate the return to school for as many children as possible, so they have some time with their teachers and some time to acclimatise to what school is like in this unreal world before a new academic year begins. We are now considering our plans and amending to see if this is possible. It will not be possible to implement children returning full time. Robin sent a survey link out on Wednesday for parents and carers in Y2 – Y5 to complete about their wishes for children to return to school. This survey closes on Sunday evening. Please complete this so we can plan and consider different options if possible.

## Science at Home Challenge

A massive well done to everyone who took part in our Science at Home Challenge this term. Sophie K and Mireille were so impressed by all of the entries and it was extremely hard to choose the winners! The winners from Primrose Hill were Nuri, Adnan, Mikhael, Zahir, Camillo and Muhammed. They all produced some brilliant entries sharing their favourite science topics. Look out for their work on the Regents High website and our own website too. Well done everyone! We can see that there are lots of future scientists at Primrose Hill.

## Playground Works

As mentioned last week, playground work is almost finished and it look fantastic!

## Reports

The class teachers are finishing their end of year reports for you as we speak. We will be printing these off as normal to distribute later this term and will require you to collect them once we give you the OK! We cannot post these sadly as it will costs ££££££££. Also, a lot of work has gone into this o we want to hand as many over personally as possible!

## September Plan

We are just finalising our class teacher plans for September...whatever the educational climate looks like. These will be shared in the coming weeks!

## Stars of the Week

★ **Dragonflies** – Ajana & Ayub  
 ★ **Butterflies** – Clarissa & River  
 ★ **Grasshoppers** – Andi + Masud  
 ★ **Beetles** – Adam & Janaya  
 ★ **Bats** – Charles & Nathan  
 ★ **Squirrels** – Nazmin and Sinead  
 ★ **Hedgehogs** – Maria & Elliot  
 ★ **Foxes** – Nina and Troj  
 ★ **Blackbirds** – Abtin and Isabella  
 ★ **Woodpeckers** – Ort and Rijana  
 ★ **Herons** – Archie & Rawan  
 ★ **Kestrels** – Anna & Hadia

## New classrooms settings!

## SHOUT OUT

★ **Froglets** – Amelie Vida, Logan and families  
 ★ **Ladybirds** – Khadra, Henry, Betsy and their families  
 ★ **Dragonflies** – Morena and family WOO!  
 ★ **Butterflies** – Aron(& his family), Zak V(& his family)  
 ★ **Beetles** – Aisha and family  
 ★ **Grasshoppers** – Noor  
 ★ **Bats** – Richie and his family  
 ★ **Squirrels** – Taleyah and family  
 ★ **Foxes** – Isabel, Maya P and Bertina  
 ★ **Hedgehogs** – Ela and family  
 ★ **Blackbirds** – Safwan and family  
 ★ **Woodpeckers** – Adnan and Mikhael  
 ★ **Herons** – James & Harmony  
 ★ **Kestrels** – Hamza, Harry & brother Sam

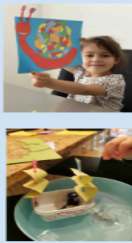

## EYFS.....

This week, the Ladybirds Class welcomed back some of the children to school, and it was AMAZING to see so many lovely faces having lots of fun being reunited with their friends again! We learnt a lot about our experiences at home during Lockdown and shared these with each other. We also enjoyed having a good catch up and there were lots of smiles all round!

### At school...

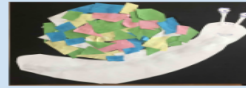

**At home...** We have been investigating water and finding out about objects that sink and float. We then used this information to help us design and build a boat that can float. We also had a lot of fun on Project Day...take a look at some of the children's wonderful examples of Matisse inspired art!

In Froglets class this week we have been having lots of fun becoming boat builders. We have been testing and finding the best materials to use that will make our boats float. We then put objects and toys into our boats to see how long they can float for before sinking! We also had lots of fun on project day! We made our art creations based on Henry Matisse's Snail. We are really looking forward to seeing some of you back in school next week!

In Tadpoles class this week we have been having lots of fun exploring our topic of water, water everywhere. We have finished making our aquariums and creating sea creatures and fish to put inside. We also had lots of fun on project day! We created our very art creations based on Henry Matisse's Snail.

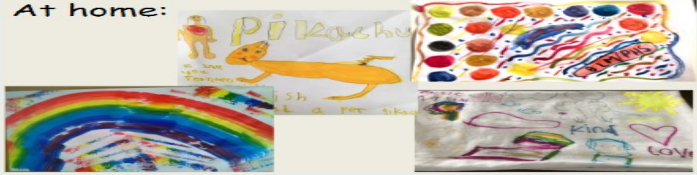

## Year 1 & 2

Year 1 are making a blanket of wishes and dreams. Each child is creating a square with images of things they have wished for or dreamed of while school has been closed. They will all be stitched together to make a class mural. It was very exciting to have some of our class back at school and lovely as always to see the work created at home...

### At school:

### At home:

Year 2 have been making models of their dream classrooms this week. Check out Clara giving us a tour of her fantastic classroom!

Here is Sy's amazing dream classroom. Sy has said "it is a classroom with slides, climbing frames, zips and flowers with grass." It sounds very fun Sy, well done!

<https://youtu.be/ZaQ1PIRq7eI>

Y2, Y3 & Y4 in-school children, were celebrating diversity for their project day which focused on "Black Lives Matter".

Children loved making human paper chain.

Mosaic self portrait of our diverse children.

## Year 3 & 4

On Tuesday, Year 3 watched the poet and performer Paul Cookson perform one of his poems about teachers. Then they used his step by step guide to create their own funny poems about teachers.

What would you do if the teacher wasn't there?

### When the Teacher isn't There.

Students climbing on the walls,  
Ripping the work,  
Playing on the laptop,  
Running around the class,  
Not caring at all because the teacher isn't there!

Children climbing on the tables,  
Eating candy floss,  
Playing wetplay games,  
Running in the corridors,  
Not caring at all because the teacher isn't there!

Kids climbing on the chairs,  
Jumping out the window,  
Playing paintball in the art room,  
Yelling in the class,  
Not caring at all because the teacher isn't there!

Boys and girls climbing over the school gate,  
Escaping from school,  
Going to the funfair,  
Having fun on the merry-go-round,  
Not caring at all because the teacher isn't there!

By Leopold

## Year 5 & 6 Year 5 Project Day! Design a theme park!

Our task was to design our very own theme park! A day at a theme park is full of thrills and excitement. There was a lot we had to consider! We were given some suggestions of things to include like a map, tickets, rides, cafes and could come up with our own ideas! Here are some examples of the theme parks we created:

## Y6 Art Work
