## Weekly Science Activity (this stays the same for the rest of the week)

### MAKE PAPER TOWEL MARKER MAGIC

This is such a simple activity, yet hours of awe and beauty! All you need are paper towels, water, a plate or shallow dish, and washable markers. We used Crayola, but any water soluble marker would work. Fold a paper towel in half like a card. On the front of the paper towel card, make a very simple design. Then inside, add more details and colors. Drop the paper towel into the water and watch the designs appear and colors spread!

**End of the Day** Please **upload pictures and examples of your home learning directly onto the Evidence Me app or web suite** for the teachers to review and celebrate. If you have any technical difficulties or need help installing and using the app, please comment on the morning register and we will get back to you with support.
