

SEND Parent Training - Supporting Children With Low Language

With our **Speech and Language Therapist Emma Hancock-Taylor and Aurora (SENDCo)**

When: 9.15am Thursday 16th November
Where: middle hall

Please come to the **main office foyer** where we will greet you

This parent training is to provide support and information for parents and carers of children with low language. Your child may be entirely non-speaking or they may have less language than their peers. They may struggle to use language for communicative purposes or struggle to express more complex emotions. Our speech and language therapist will be sharing best practice with regard to how to support language and communication for your child. Afterwards there will be a short Q&A.
